It doesn't violate the County Conflict of Interest and Code of Ethics Ordinance. However, you should check with Lee Kraftchik in the County Attorney's Office for his opinion about whether it's permissible under the County's Gift AO.

We need further clarification regarding donated gifts. Lourdes from our training section was able to secure some free coupons for lunches from our food vendors and items in the card shop downstairs that we would like to give out as door prizes at our department picnic. The value for these items are under \$25.00.

Is it OK to accept these donations given that these vendors have contractual agreement with the County? Your review and opinion is appreciated. Thanks again.
