Re: RQO 07-31

The Ethics Commission received a Request for Advisory Opinion from Metcalf and Eddy regarding NTPC E07-WASD-01 (Construction Management Services for the South Miami Heights Water Treatment Plant). As you are aware, the NTPC required contractors to request an opinion if they had provided any services related to design or construction management for the South Miami Heights Water Treatment Plant.

In the request, Metcalf and Eddy states that neither the prime consultant or any of the subconsultants have performed any services related to the South Miami Heights Water Treatment Plant. Accordingly, the Ethics Commission did not issue an opinion regarding the contractor.

If the Office of Capital Improvements or WASD during due diligence determines that the prime or any subconsultant did provide services , please contact me and the matter will be placed on the next Ethics Commission agenda.

Please contact me at awalker@miamidade.gov or at (306) 350-0616 if you have any questions.
