

Hello Like to tell you a little bit about Arnaldo Perez and his abusive ways here in solid waste management. He talks very nasty to us (Drivers) and doesn't let us take our last 15 minute break, also doesn't let us do pre-trips on the trucks when we have to jump in and out of them to get his load count. You wonder why this transfer the division has accident. Also I don't know how he got superintendent job without a class A license at the time which I'm pretty sure he obtain later thanks to his friend James Michael Moore that brought him over here from public works illegally. I like to remain anonymous because as I've seen in the past when you speak up here they tend to punish you. Please do not ignore.

Thank you  
Solid waste employee
