Subject: RE: public hearing application

Dear Mr. Endara,

Based upon your job duties in the Planning and Zoning Department and the fact that you would be appearing individually (as opposed to representing a group of individuals), then you have the right to speak and express your concerns.

If you have any additional questions, please do not hesitate to contact me.

Robert Meyers, Executive Director
Miami-Dade Commission on Ethics and Public Trust

Subject: public hearing application

I would like to know where do I stand if a zoning hearing application is submitted for changes in my neighborhood which I do not agreed .the questions is, am I permitted to speak my concerns against this application at the hearing as a concern citizen and neighbor. What I am afraid that the Department might hold my actions against me and will this be considered a conflict of interest. My duties are only to process applications and I do not make decisions in favor nor against, I review the plans and verify what sections of the code this application does not comply and prepare an advertizement for such defeciciencies, which are mailed to the neighbors and published in the newspaper.
