Subject: Your ethics question

Hi Charles:

It was a pleasure meeting you this morning.

I discussed your question with Robert Meyers. He confirmed my initial impression regarding your question as to whether you had a conflict under, Section 2-11.1 (m) Appearances, between your position on the Criminal Justice Council and your position as Director of the Corrections Department.

You are not prohibited from voting on or participating in the discussions concerning the mental health facility and the role the Department will have with that entity. Additionally, you are not considered to be "appearing" before the Council when you make presentations about the Department's views on the issue, given that you are not representing a third party, but rather offering the perspective of the Corrections Dept. in your official capacity.

Should you have any additional questions please do not hesitate to contact me.

Sincerely,

Christina Prkic
