Ms. Gonzalez,

Based on the facts that you have no special access as a County employment to real estate information than the general public or other real estate agents, there is nothing in the County's Conflict of Interest and Code of Ethics Ordinance that bars you from accepting this type of outside employment. This assumes, of course, that you receive permission from your Department Director and you report the income you earn from this activity at the appropriate time.

If you have any additional questions, please contact me at your convenience.

Sincerely,

Robert Meyers

Subject: Please, I need your help

Mr. Meyers:

My name is Yolanda T. Gonzalez. I work for Miami Dade County, Environmental Resources Management for the Environmentally Endangered Lands Program as an Administrative Secretary.

I got a real estate license and I getting ready to register to work, as a part timer, with a Real Estate Office.

I need to find out if is it any conflict of interest between the work I do for the County and the Residential Real Estate

Right now, I work for the Environmentally Endangered Lands Program. My program purchases land with preservation purposes through Public Works Department and Nature Conservancy. I am the secretary of the section and I do not have access to any real estate data.

Could you please be so kind and look into this and tell me if I can do real estate?

Thank you

Yolanda
