Angie,

Thanks for your e-mail. I'm not certain I understand your question. If there is no lobbying involved, then you are not required to register as a lobbyist. If the product is already in use at the hospital and it's simply a matter of determining the best way for the hospital to utilize the product, I would not consider this to be a form of lobbying.

If you have any additional questions, please contact me at your convenience.

Sincerely,

Robert Meyers, Executive Director
Miami-Dade Commission on Ethics and Public Trust
(305) 350-0613

Subject: Vendor application fee inquiry

Robert,

I spoke with Keith Knowles earlier today and he recommended I get with you regarding the lobbyist fee for being a vendor at Jackson. Our two products are already at use within Jackson and I have a department that is interested in using a different size of a product that is already available. This would make the product move from pharmacy to materials management (where the other product is filtered through).

Keith thought I may not need to pay the fee since there is no new product I am lobbying. He said you would be the best person to speak with.

Please let me know what you think or if you have any additional questions. Thank you.
