Subject: Carlos Brito's request

Dear Mr. Schmuger,

I received a telephone call yesterday from Carlos Brito and he advised me that you wanted an opinion from our office before you would give him clearance to make a sign for a fundraising activity he is involved in. He indicated to me that he wants to use GSA's equipment to design and print a sign to benefit the children of Afghanistan. Mr. Brito stated to me that the White House is organizing these fundraisers throughout the country. Given the fact that very little time will be spent on this task and minimal County resources will be used to design and print the sign, I believe it would be perfectly ethical for you to grant him permission to make this sign.

Please contact me if you have any questions.

Robert Meyers, Executive Director
Miami-Dade Commission on Ethics and Public Trust
