Subject: Ethical Problem?

Robert: My husband is about to accept the employment. Please let me know if his future employment will create any ethical problem?

Subject: RE:

My husband will be employed as an employee only. He does not have any controlling financial interest of the firm.

On the other side, my job duties will overlap some of the projects this firm do for Parks (including negotiating fee proposal, reviewing and approving plans, approving payments etc.).

I need more information to answer your question. As a general rule, your spouse can work for a company that has a contract with the County as long as he does not have a controlling financial interest in the company. Therefore, I need to know what financial interest, if any, he has with this firm. Also, I need to know what your job duties are with the Parks Department and does your work overlap with any work being performed at the Parks Department by your spouse's prospective employer?

Thanks,

Robert

I am a Professional Engineer of the Park and Recreation Department. My husband is offered a job with an engineering firm which has a contract with us. Will my husband acceptance of the job jeopardize my employment of P& R?
