Hi Olga,

I've reviewed this matter with our Executive Director. Since the list of companies are selected at random and you are not targeting any particular company, there is no prohibited conflict for you to participate in the North Dade Regional Chamber's membership drive.

Keep in mind that your participation is as a member of the Chamber's board and not as Regional Coordinator for Team Metro; therefore, you may not use County/Team Metro letterhead or other County resources relating to the membership drive or any other Chamber activity. Additionally, when speaking to potential members, you should avoid mention of your Team Metro employment.

Should you have any additional questions, please do not hesitate to contact me.

Regards,  
Christina Prkic

Hi Christina,

I'm the Regional Coordinator for the Team Metro North Central Office. In addition, I serve as the Executive Secretary for the North Dade Regional Chamber of Commerce's Board of Directors. They are in the process of implementing a membership drive and have asked me to participate. The Chamber will provide each participant with a list of companies to call and solicit their membership with the Chamber. I'd like to know if my participation in the membership drive will create a conflict of interest because I'm an executive governmental employee. Please advise. Thanks.
