You may provide architectural services to the county as a consultant. Section 2-11.1(q) only prohibits former county employees from lobbying the county on behalf of a third party for two years after they leave county employment. The Conflict of Ordinance and Code of Ethics ordinance permits former employees to work as outside consultants after they leave county employment. As per our conversation today, I am requesting legal opinion for my being able to provide Architectural Services to the county. As I explained to you I retired from county service as of June 30, 2003. I am the only individual practicing in my P.A. I am registered with the State of Florida, certification # 2750. I want to be certain that I am perfectly legal in providing services for the county. Thank you for your attention to this matter,
