Subject: RE: Request for Clarification

Hi Sheila,

I discussed your question with our Executive Director, Robert Meyers. This matter is more appropriately handled by the Director of the Risk Management Division of GSA than by the Ethics Commission, since GSA administers this policy through AO 6-2, Assignment, Operation, Acquisition, Maintenance and Disposal of County Vehicles.

Below, I've included a section of the AO for your review. You can read the AO in its entirety on the County website. The number for the Risk Management Division is (305) 375-4281.

Should you have any additional questions or concerns please don't hesitate to call.

Kind regards,
Christina Prkic
Staff Attorney
Miami-Dade County Commission on Ethics and Public Trust
P: (305) 350-0615

Administrative Order 6-2

F. Use of County Vehicles

The use of County vehicles is restricted to County employees only, and for County business only. No County vehicle is to be used for personal business. Additionally, in compliance with State law, all persons in a County vehicle are required to use their safety belts.

Subject: Request for Clarification

Good Morning Ms. Prkic,

After we spoke on last Friday, I advised that I would send an e-mail to follow-up, and give you an opportunity to conduct any needed research to provide guidance. Sorry for the delay.

The question needing clarification is: Can a County Employee, who is required to be on call and respond accordingly 24/7, who is assigned a take home vehicle, take the County vehicle to College for criminal justice classes that begin right after their normal working hours end? The employee is still required to respond (from College or any where else), if needed or warranted by the Department.

If any additional information is needed, please advise. My office number is (305) 229-7551 or my pager is (305) 881-5201.

Thank you,
Sheila Siddiqui
