Subject: Possible Corruption Case --- Please follow up

On May 7th 2012 the City of Miami Beach's Clerk's Office received a Statement of Organization for an Electronic Communication Organization (ECO) named Preserve Miami Beach, this ECO as per the Public Records is headed by a gentleman named Jeffrey Garcia. Ten days later on May 17th , 2012 this ECO reported a deposit of a single check in the amount of \$100,000 (One Hundred Thousand Dollars) from AP City Construction out of Highland, New York, not a single deposit has been made since.

Allegedly this was a payment made to this Electronic Communication Organization (ECO) for the single objective to be spent in Commissioner Michael Gongora's political campaign in return for his vote and support in favor of ousting ex city manager Mr. Jorge Gonzalez and the upcoming Convention Center Project.

As of today, no criminal activity has been committed (that can be proven), unless those powers to be issue a subpoena and they are questioned under oath and/or those funds are used for such a political campaign. You could make some inquiries with the information that is attached and find out about the \$100,000 payment and why a company out New York will give that kind of money to an Electronic Communication Organization (ECO) to be used in Miami Beach.

**THIS COULD BE THE BIGGEST CORRUPTION CASE IN MIAMI BEACH, INCLUDING THE ALEX DAUD, GUS LOPEZ, JOSE ALBERTO, THE INSPECTORS, AND POLICE... ALL BUNDLED TOGETHER.**
