Subject: Ethics Question

Dear Commissioner Sosa:

I spoke to Gerald Sanchez last week and he indicated that you would like an opinion from our office regarding an unused airline ticket. As I understand it, you were scheduled to fly to Tallahassee last year on County business and were unable to make the trip. You received a voucher from the airline, good for one year, which you intended to use at some point during the year on County business. As it turns out, you did not use the voucher within the year and it expired. You wish to know whether you have anything to report as a result of having received the voucher.

The voucher never represented a gift to you, as you received it in your official capacity to conduct County business. Since you never actually used the voucher, there is definitely nothing you need to report.

If you need clarification or wish to discuss in greater detail, please contact me at your convenience.

Thanks,

Robert Meyers
