**Subject:** Taser International

Dear Captain Diers:

Pursuant to our phone conversation you advised me of the following:

Taser International is a County vendor from whom MDPD purchases their taser devices.

Taser International is offering a new product, a mobile, officer worn recording/video device similar to the in-car devices but worn on the officers lapel.

Taser International is sponsoring a seminar open to all law enforcement officers to tout their new product.

Taser International has offered to all law enforcement agencies the opportunity to attend the seminar and stay at the host hotel for a rate of \$345 (includes seminar and hotel) NOT airfare.

You are permitted to take advantage of the rate of \$345 offered by Taser International. My understanding is, based upon what you advised, that the MDPD will pay the \$345 and pay for airfare. In other words Taser International is NOT picking up the tab they are only offering the group rate which is available to all law enforcement nationwide not just MDPD.

If I have misstated any of the relevant facts please let me know.

Thank you
