Subject: RE: Global Asset Sustainability

Mary:

There is no problem with becoming a member of the group or sitting on the board. Nevertheless, should you be required to attend meetings out-of-town, Miami-Dade County would have to pay for the travel due to the fact that County vendors are not permitted to pay travel expenses or travel-related expenses for employees, no matter the reason for the travel.

If you have any additional questions, feel free to contact me at your convenience.

Thanks,

Robert Meyers

Subject: Global Asset Sustainability

Hi Robert,

Devesh and I have been invited to become members of Global Asset Sustainability group sponsored by Infor Global Solutions. Infor is the County's Enterprise Asset Management technology vendor and accordingly we own the software. All Infor Asset Sustainability customers are eligible for membership.

The purpose of the group is to:

"promote collaboration and strategic direction on the enablement, aggregation, visibility and operating efficiency and intelligence of the Infor Asset Sustainability technology solution in order to help meet existing and future valid operating and environmental requirements."

Joining this group will benefit the County by enabling a formal means of contributing towards the future direction of the product.

Please let us know if there are any concerns with becoming a member of the group or sitting on the board for the group.

Thank you and have a great weekend.

Mary M. Fuentes
